# MOUNTAIN BOOK COMPANY

Many bookstores prefer to order electronically via Electronic Data Interchange, but most small publishers can't afford to provide EDI ordering. Mountain Book Company helps to bridge that gap.

## How to Order

Use [pubnet.org](http://pubnet.org) as you would to purchase from any of the larger publishers or distributor members. We receive and process the order, invoice the buyer electronically, and send shipping instructions to the individual publishers who do their own fulfillment. If you are not set up to receive invoices via EDI, contact us before you order. We can fax an invoice to you. The buyer pays Mountain Book Company, Mountain pays the individual publisher.

## Terms

For consistency, we are offering all bookstores a 45% discount, net thirty days, and free shipping regardless of quantity. In exchange for these generous terms, we sell all books on a nonreturnable basis. Because we don't warehouse the books, it would be a nightmare for us to collect returns. And, because these presses are small, the odds are good that a customer walked into your store and specifically requested the title, so your risk of an unsold book is small. We simply want to make it easy for you to fill those orders.

## About Mountain

Mountain Book Company was formed in 2005 by Kenn Amdahl, author and president of Clearwater Publishing, to provide EDI ordering for his own titles and those of a few other compatible companies. He's been selling books nationally since 1990. This seemed like a natural outgrowth of his existing business. We expect to add a few more publishers to our fold, so please check our website from time to time.
